

Source . Understand . Research . Evaluate.

Module: Plan: Summary

Ask yourself these questions:

What are the areas being discussed?

How relevant is this to my research topic?

How much of it is current? How much of it is local?

How much material has already been published?

Who are the experts on this topic?

And don't forget the final two:

Does the topic interest you?

Can I make a contribution?

Source . Understand . Research . Evaluate.
