2 Ouestioning Technique TW H

The 5W1H questioning technique is a framework that you can use when gathering information and investigating on a topic.

Who

Identifythe peopleor characters involved.

What

This refers to the issue at hand. Some aspects include official definitions, activities, actions or problem to be solved.

Find out about the place, location, or exact spot. You can consider different scales - global, regional or local.

When

This refers to the timeframe. Is the issue taking place in the past, at present or in future? Consider the specific year, date and time.

Why

Uncover the causeandmotivation behind the issue.

How did the event take place?
How will you solve the situation?

You can consider using this framework to expand a discussion, scope your research, organise your findings, or create articles and reports.
